Teliti, terperinci dan standard yang tinggi - Gabenor Ismail Ali mengambil inisiatif menyunting dan mendapatkan sebanyak mungkin analisis untuk laporan tahunan Bank. Beliau berkata, 'Laporan tahunan Bank tidak cukup analisisnya. Hanya fakta dan angka semata-mata. Saya tidak berpuas hati dengannya. Bank ini bukan sekadar pejabat perangkaan. Saya mahu kakitangan membuat analisis supaya orang ramai boleh memahami apa yang dimaksudkan dengan angka-angka tersebut'

Dengan ini, kakitangan Jabatan Ekonomi telah ditambah dan beberapa orang dihantar ke luar negeri untuk mengikuti kursus-kursus tertentu. Akhirnya, Bank mempunyai lebih banyak penyelidik ekonomi berbanding dengan institusi lain di Malaysia

Meticulous attention to detail and high standards - Governor Ismail Ali took a personal interest in the editing process and the quality of the analysis in the Bank's annual reports, 'It was not analytical enough. It was all just facts and figures. I was not happy about it. We were not just a statistical office. I wanted our staff to analyse, to tell the public what these figures meant'

With this in mind, the Economics Department was increased in strength and expertise – the Bank had more economists under one roof than any other institution in the country

Fakta Menarik
Pada waktu dahulu, satu kumpulan tujuh atau lapan orang pegawai Bank ditempatkan di pejabat kecil yang dilengkapi penyaman udara di premis pencetak untuk mempercepat proses penyemakan pruf. Gabenor Ismail Ali membuat lawatan mengejut ke situ. Kum Printers dilantik mencetak laporan tahunan Bank sejak tahun 1966 hinggalah ke tahun 2002.

Fun Fact
In the early days, a team of seven or eight Bank staff would install themselves in a small air-conditioned office at the printers in order to speed up the proofreading process. Governor Ismail Ali himself would visit to conduct spot checks. Kum Printers printed the annual report from 1966 to 2002.cheques while the other would go from counter to counter to deliver the cheques.
